EUGENE, ORE. -- The latest editions of two leading reference guides serving the North American softwood forest products industry are now available. The 2013 Big Book is the largest and most widely recognized directory of the North American softwood industry. The 2012 Yearbook is the industry's most comprehensive source of historical market information. Random Lengths publishes both reference guides annually.

The 2013 Big Book's 832 pages contain 4,158 listings of U.S., Canadian, and offshore softwood companies and 16,063 personnel. The convenient guide shows addresses, phone and fax numbers, email addresses and websites, company profiles, and other valuable information. More than 85% of the listings from the 2012 Big Book have changed.

The 2012 Yearbook features more than 300 pages of data and provides price histories for the past 11 years for more than 290 key lumber and panel items. Easy-to-read graphs

INFORMATION SERVICES FOR THE FOREST PRODUCTS INDUSTRY

track monthly price averages for the past five years. The Yearbook lists economic data such as housing starts and home mortgage rates for 2009-2012. Also included are a nine-year market chronology and an international section that offers price histories, trade-weighted dollar information, and export volumes by species and destination for 2007-2012.

The Big Book is available for \$239.95. The Yearbook is available for \$46.95. Random Lengths offers discounts for multiple-copy purchases.

Random Lengths Publications, Inc. is an Oregon-based publisher of newsletters, market analyses, price histories, and reference books for the forest products industry. Its weekly newsletter, Random Lengths, tracks current prices and market trends for North American lumber and panel markets.
